

# PAIN? *Look here. It's gone!*

## The problem...

Doctors discovered that most Foot-Leg-Back pain is due to **misalignment of the bones in your feet.**

It makes sense. There are 26 bones in your feet. And they can shift and cause pain from: wear and tear, advancing age, lack of exercise, excess pressure from a few extra pounds, poorly-fitting shoes, or just standing on your feet all day.

## The SOLUTION ... Feathersprings!

Feathersprings are custom-made from imprints of your feet. They *support*, *protect*, and *cushion* your feet. They're also the only orthotics made of thin, lightweight (and, yes, comfortable) Swedish stainless steel. *Think: long lasting!*

Feathersprings are so thin, they will fit in all your shoes. They are professional orthotics and they're a great deal at \$329.95. But with this special offer they're yours for only \$229.95 **You even get a ONE YEAR TRIAL and a LIFETIME WARRANTY!**
